

CHLORINE TEST KIT

Chlorine test kit is made with a new improved Micro Chlorine Test Paper that gives instant readings with chlorine sanitizing solutions. The color is matched at once to the color chart for a reading of chlorine strength. Kits consists of one dispenser with color chart and two 15' rolls of test paper.

Each tester furnishes sufficient test paper for over 200 tests.

TKCHLORINE One Chlorine Test Kit

QUAT TEST KIT

Used for determining the concentration of quaternary ammonium compound in the range of 0 to 500 ppm.

Kit consists of one dispenser with color chart and one 15' roll of hydriion QT test paper.

TKQUAT One Quaternary Test Kit

PH TEST KIT

5-9 Hydriion pH Short Range Indicator Solution will give accurate pH readings at each .5 pH unit from pH 5.0-9.0, and is excellent for measuring the pH of waste water, pure water, tap water, rain water and pond water.

TKPH59 One PH Test Kit
